Make the Right Call

No crime is too small or minor to be reported. When you report an incident to the police remember to ask for an incident report number and retain it to obtain follow-up information. Every call is important, even if it is not about a life threatening or emergency situation. Whatever the case, you have a role to play – Make the Right Call!

911 – Life Threatening Emergency or Crime in Progress
613-230-6211 – Dispatch a Police Officer
613-233-TIPS (8477) – Crime Stopper Anonymous Reporting
613-236-1222 ext 7300 – To file a crime report
311 – By-Law infractions

FOR IMMEDIATE RELEASE: Friday, May 28, 2010 10:55 am

(Ottawa)– Ottawa Police will be placing impaired driving and cycling safety in the spotlight for the City's Selective Traffic Enforcement Program (STEP) in June. STEP is a monthly initiative operated by the City of Ottawa's Integrated Road Safety Program (IRSP). In addition, the IRSP is teaming up with the CAA North & East Ontario to deliver additional R.I.D.E. checkpoints in June. In 2008, 373 impaired driving-related collisions occurred on Ottawa roads, resulting in seven deaths and 154 injuries (17 of them serious). Eighty one percent of the impaired drivers are male and 34 percent are between the ages of 16 and 25.

In spring and summer, cycling safety becomes a serious issue that warrants particular attention. Like pedestrians, cyclists are vulnerable road users. In 2008, 262 cyclists were injured in traffic collisions on Ottawa roads, 20 of which were life-altering.

Next month's cycling safety initiative will target drivers who violate cyclists' rights, and cyclists who disobey the rules of the road. It will include both education and enforcement. Sharing the road in a safe manner is essential so that our roads remain safe for all users.

Tips for Drivers to Increase the Safety of Cyclists

- Treat bicycles as you would any other vehicle on the road. Cyclists generally ride in the right-most through traffic lane, about one metre from the curb or parked cars.
- When passing a cyclist, leave a safe distance between your car and the bicycle. Give extra passing distance during slippery road conditions.
- Pass at a moderate speed and give plenty of space on quiet roads. Cyclists may be startled by fast-approaching vehicles.
- Shoulder check and signal all lane changes and turns.
- Check for bicycles in your side view mirror before opening your car doors.

Tips for Cyclists to Increase Their Safety

- Shoulder check and signal all lane changes, turns and stops.
- Do not cycle on sidewalks. Motorists do not expect cyclists to enter the roadway from the sidewalk.
- Recognize and be careful of the blind spots around cars, trucks and buses.
- Exercise caution when crossing intersections.
- Always wear a helmet.
- Be bright at night. Use a headlight, taillight, reflectors and light-coloured or retro-reflective clothing so drivers can see you.

Each month since 2004, STEP has been profiling and enforcing two initiatives that target specific traffic safety priorities. These initiatives support larger IRSP public awareness and enforcement campaigns.

Update: Ottawa Police participates in Canada Road Safety Week 2010 to remind people that safe driving habits save lives

FOR IMMEDIATE RELEASE: Friday, May 28, 2010 9:00am

(Ottawa)— In recognition of Canada Road Safety Week, May 18 - 24, 2010, the Ottawa Police Service, in partnership with the Ontario Provincial Police (OPP) and the Royal Canadian Mounted Police (RCMP), conducted a number of campaigns/initiatives to increase compliance with safe driving measures.

Enforcement during the seven day campaign was focused on three key areas:

- Drinking and driving, in any and all circumstances.
- Using seat belts and child restraints every time, no matter how short the trip.
- Aggressive driving, driving at unsafe speeds, following too closely or running red lights and stop signs.

A total of 3,695 traffic-related charges were laid with 2,715 charges being laid under the Highway Traffic Act, 508 charges being laid under the Compulsory Automobile Insurance Act and 418 charges being laid under the Traffic and Parking By-Law 2003-530.

Of the charges laid under the Highway Traffic Act, 1468 were issued for offences relating to aggressive driving and 140 were issued for seatbelt related offences. There were also 34 charges laid and 14 suspensions issued under the Criminal Code of Canada for drinking and driving.

On the evening of May 14, 2010, during the first "Race Night" of the season, approximately 176 vehicles were stopped for various traffic infractions including 38 incidents of speeding, as well as disobeying traffic signs and various other traffic violations. As well, seven operators were charged with removing the catalytic converter from their vehicle and one was charged with offences under the "Drive Clean" regulations.

In addition, Ottawa Police conducted RIDE Programs during the evenings of Friday, May 14, Thursday, May 20, and Friday, May 21, at six locations around the city. A total of 3,950 vehicles were stopped and 10 roadside tests were administered. Sixty-two Provincial Offence Notices (PON) were issued and two vehicles were towed. There was also one drug seizure and two warn range suspensions issued.

The Ottawa Police Service is committed to keeping Ottawa roadways safe through education, prevention and enforcement.
